

Trelleborg Industrial Anti-Vibration Solutions

With over 100 years of experience as Metalastik and Novibra, today Trelleborg Industrial Anti-Vibration Solutions make improvements people can physically feel.

At Trelleborg, we know that you're looking for more than just products. You're looking for business solutions. That's why our anti-vibration products are built around the outcomes you want to achieve. Whether it's providing a safer environment for machine operators, reducing noise pollution, reducing downtime or saving costs and increasing revenue, we can work with you to help you attain your goals.

With three state-of-the-art manufacturing plants across the globe, our experience in rubber to metal bonding enhances a range of industries, including off-highway vehicles, rail and mass transit, marine and energy and general industry. The Metalastik and Novibra product ranges in particular represent the expertise and rich heritage of our anti-vibration solutions.
