HD Cushyfloat

The latest generation of Metalastik® Cushyfloat™ is a completely new and innovative design which offers engine manufacturers and boat builders maximum versatility. This product has multiple performance benefits for customers whose requirements may be varied and challenging for conventional solutions.

The HD Cushyfloat has excellent performance characteristics with:

- Up to 10mm linear vertical deflection, with low horizontal stiffnesses. This enables improved vibration isolation - even at the low end of the engine speed range.
- Vertical and lateral buffering within the design limits the movement of the engine in tough service conditions.

The HD Cushyfloat provides simplicity for engines manufacturers and end users with:

- an interchangeable footprint with existing mountings; minimizing retrofit installation issues.
- The entire range can be formulated from just three rubber mixes; therefore reducing inventory requirements, and the complexity of product selection.
- Installation is aided by sighting grooves so that it is easy to align the engine, and ensure the correct load distribution.
- More cost effective product life and serviceability due to its modular design. Upon refurbishment, the outer casting can be re-used.

About Trelleborg Industrial AVS

Over 100 years of experience as Metalastik and Novibra, today Trelleborg Industrial AVS make improvements people can physically feel. From smoother travel to quieter, more efficient machines, we make life feel better. With quality, testing and compliance built in, we're in it for the long haul, ensuring your solution still works, over an extended and often arduous life-cycle.

With three state-of-the-art manufacturing plants across the globe, our experience in rubber to metal bonding enhances several industries, including off-highway vehicles, rail and mass transit, marine and energy and general industry.

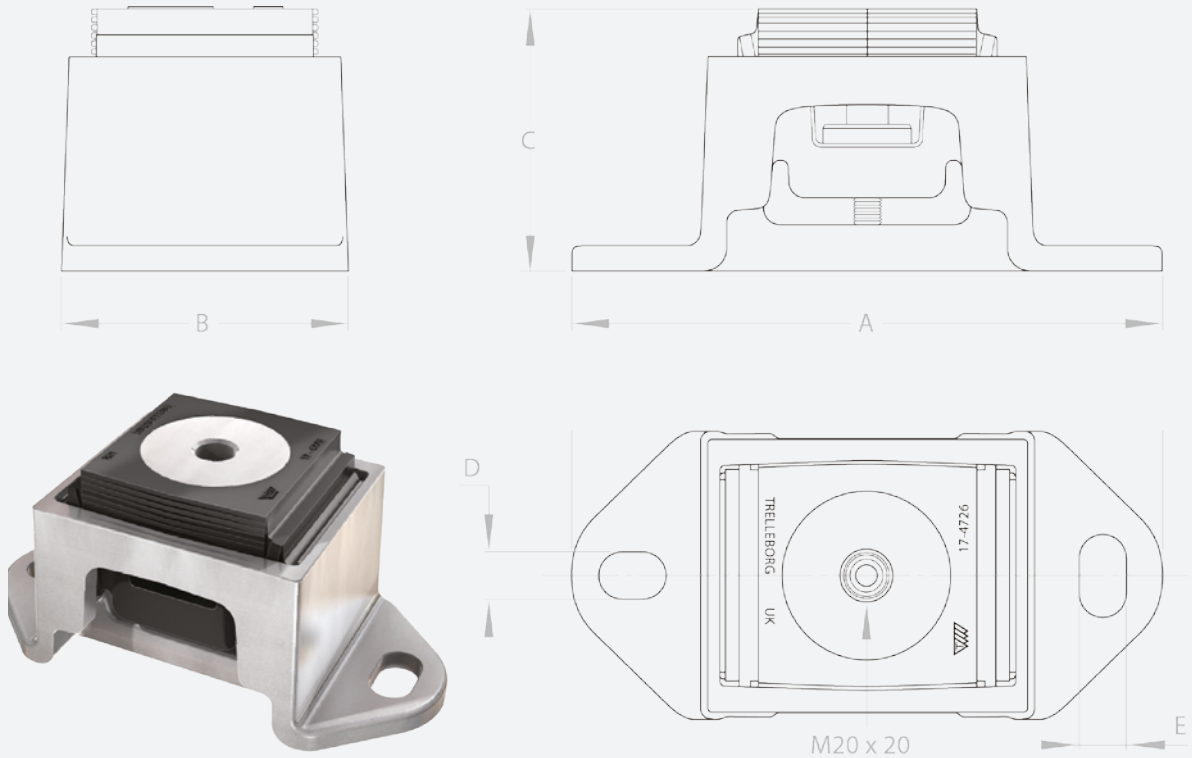

We offer an end-to-end service, to take you from concept through design, manufacturing and testing to delivery. This reduces the complexity of supply, helping you cut costs, mitigate risk and receive on time, on budget delivery.

Trelleborg IAVS is part of Trelleborg Group, which employs 15,000 people in over 40 countries. Whatever your challenge, whatever your role and wherever you are, we are nearby to offer expert knowledge and quality solutions.
